### **DETAILED ACTION**

1. Claims 1-20, 23 and 24 are pending in the instant application.

#### ***Response to Amendment***

2. Applicants' Response of July 29, 2008 has been reviewed by the Examiner and entered in the file. Accordingly, claims 1-20, 23 and 24 are currently pending in the instant application.

The scope of the invention of the elected subject matter, as defined in the previous Office Action, is as follows: Compounds and compositions of Formula (I), depicted in claim 1, wherein: **R<sub>1</sub>** and **R<sub>2</sub>** each contain aryl radicals, and the remaining variables are as defined in the claims.

3. Claims 4-8, 12-15 and 18-20 are currently withdrawn from consideration as drawn to non-elected subject matter.

#### ***Previous Claim Rejections –***

##### ***35 USC § 102***

4. Claims 1- 3, 9-11, 16, 17, 23 and 24 previously rejected in part under 35 U.S.C. 102(e) as being anticipated by WO 03/055860 A1 to Drysdale et al. In view of Applicants' persuasive arguments, the rejections have been withdrawn.

#### ***Status of the Claims***

5. Since the pending art rejections have been withdrawn, the scope of the invention of the elected subject matter has been expanded to include all compounds and compositions according to formula (I), i.e. claims 4-8, 12-15 and 18 are herein rejoined for examination on the merits. Claims 19 and 20, drawn to methods of use, remain withdrawn from consideration.

#### ***New Claim Rejections-***

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1 and 23 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicants recite a “A compound... or a salt, hydrate or solvate thereof,” however, it is unclear from the claims themselves which hydrates or solvates Applicants are intending to claim.

Applicants briefly reference addition salts of the claimed compound on page 6. Applicants mention solvate and hydrate forms of the instant compounds on page 4 of the Specification, “... and the invention includes all novel members of that class and their salts, hydrates and solvates,” but do not discuss any possible hydrates or solvates within disclosure itself or the claim, therefore it is confusing as to which hydrates or solvates are intended.

***Claim Objections***

8. Claims 2-18 and 24 are objected to as being dependent on rejected base claims.

***Conclusion***

9. In conclusion, claims 1-20, 23 and 24 are pending in the application, claims 19 and 20 are currently withdrawn, claims 1 and 23 are rejected, and claims 2-18 and 24 are objected to.
